Features

Natural Shades

Bali® Natural Shades are crafted from bamboo reed, slit bamboo, sisal, grass, and jute materials. They add natural color, texture, and dimension to your windows and create a comfortable atmosphere of casual elegance or simple sophistication.

- Standard, Old Style, and Looped Roman shade designs
- Wide selection of colors, textures, and unique weaves
- Cord lift, cordless lift, continuous-loop lift, bottom up/top down, and motorized lift available
- 6" valance with horizontally oriented material is standard on shades except for motorized lift and continuous-loop lift
- 9" valance with horizontally oriented material is standard with continuous-loop lift and motorized lift shades

Natural Drapes

- Natural drapes feature the rolling qualities of drapery in vertically oriented natural shade material
- Features wand control, corded, and in single or split stack
- Choose from standard fullness (when closed, waves slightly) or a 60% fullness (when closed, features drapery-like appearance)
- Palisade valance included with the drape
- Drape without valance (optional at no charge) is not recommended, as aluminum headrail and hardware will be visible; suggested when ordering wood cornice
- Wood or fabric cornice is an option in place of valance; see wood cornice product information guide and price list.
- Valance and returns will extend ½" further than drape width
- Edgebanding is required and complimentary on the drapes and standard valance
 - Select from 1" solid edgebanding
 - Valance will use matching edgebanding

NOTE: Not available with Faroe, Tarkine, and Walpole.

Features

Nature's Beauty of Natural Shades

There is simply no substitute for the beauty of the materials used in natural shades. The colors and textures of bamboo, reeds, grass, and jute have a distinct character and one-of-a-kind look that synthetic materials can't match.

Unique Characteristics of Natural Shades

Asymmetry

Materials used in natural shades are naturally grown and harvested. Variations in shape, thickness, texture, and grain are to be expected from Mother Nature. While adding personality, these variations create asymmetry in the weave that may alter the appearance of the finished shades. Specifically, you may notice:

- **Uneven Spacing or Gaps**—differences in bamboo or reed shapes and thicknesses can create uneven spacing or gaps in the weave
- **Pattern Changes or Gaps**—varying thickness of grassy materials, tied knots, and splices can create visual disruptions in the weave pattern or gaps in the weave
- **Length Differences**—variations in thickness, bamboo joints, or reed sizes can create length differences from both sides of the shades
- **Bowing or Arching**—different drying rates of bamboo fibers on one side and skin on the other side of the bamboo slat can create a bowing or arching effect on the finished shades

To minimize variations, all materials used are hand selected to comply with strict specifications. These variations are not considered flaws, but rather normal characteristics expected from naturally grown materials.

Color

Evolving with age, the color of bamboo, reeds, jute, grasses, and other natural materials will change slightly. Depending on material composition, they may lighten or darken due to direct sunlight or other climatic conditions. Uncolored or natural materials will experience the most color shift, changing from a green color at harvest to a yellow-brown color over three to six months. Color matching of shades cannot be guaranteed as these are natural reactions to aging.

With character, however, comes inherent natural properties that may influence the appearance of the finished shade. Recognizing and understanding the characteristic traits of natural materials provides more satisfaction and enjoyment once you know why each shade is truly unique!

Stretching/Sagging

The natural elasticity of yarns, combined with the weight of the natural material, may cause shades to stretch or sag from 1" to 1½", and sliding panels to stretch or sag from 1" to 2" after installation. This is particularly noticeable on inside mount shades or shades that extend from ceiling to floor. Ordering shades shorter than needed will help compensate for stretching over time.

Tips

During the shipping process, the natural material may have shifted slightly due to its natural construction, causing slight shortening or uneven edges.

Height—If after installation, the shades are slightly shorter than ordered, grasp the bottom of the shades and gently pull to stretch to the preferred height. Some materials will also stretch by themselves over time.

Uneven Edges—Lightly tap edge of the shades with a flat edge (for example, a ruler) until even.

Frayed Edges—If threads come loose near the edges, use a sharp scissors to trim off stray threads.

Light Control and Privacy

Sheer: Allows the most amount of light into the room for a minimum amount of privacy and a view to the outside. Objects in the room can be seen quite clearly through shades.

Light Filtering: Allows light to gently filter through and provides privacy. Images and shapes may be seen through these shades.

Natural shades may have variations and visual inconsistencies in color, weave, grain, and texture. They may also crack or split, twist or bow, shrink or stretch, and change color over time due to aging, direct sunlight, or other climatic conditions. These unique characteristics are inherent in natural materials and are not considered defects in material or workmanship. Exact color matches cannot be guaranteed.

No Charge Options: Natural Shades

- Direct mount (no installation mounting brackets)
- Side mount brackets available up to 42" wide
- Bay or corner window
- Clear cord cleats: standard
- Hem options: standard hem
- Hold down brackets^{††}
- Projection brackets: 3 1/8"
- Returns 2" short
- Turned headrail
- Valances included at time of order:
 - Standard 6": cord lift; bottom up/top down; and cordless
 - Standard 9": continuous-loop lift and motorized lift
 - No valance: optional

Surcharge Options: Natural Shades

- Angled top
- Bottom up/top down
- Continuous cord/chain loop
- Cord cleats: antique or solid brass
- Cord winder
- Cordless lift
- Cut-outs
- Edge banding[†]
- Deco-trim hem
- Liners
- Motorized lift
- Multiple shades on one headrail
- Valance options:
 - Standard 9"
 - Palisade 6"
 - Palisade 9": all control types
 - Deco-trim valance 9"
- Wood cornice: see cornices and valances product information guide

No Charge Options: Natural Drapes

- Control types
 - Wand control
 - Cord control
- Ceiling mount brackets
- Edge banding[†]
- Stack right, left, or split
- Fullness: standard
- Valances:
 - Palisade 6"
 - Horizontal or vertical orientation
 - Palisade 9"
 - Horizontal or vertical orientation
 - Deco-trim valance 9"
 - Horizontal material orientation
 - No valance: optional

Surcharge Options: Natural Drapes

- Fullness: 60%
- Liners
- Wood cornice: see cornices and valances product information guide

[†]Edge banding: Optional on shades or valances on most fabrics with horizontally oriented material; required on Sliding Panel, Natural Drape, and valances with vertically oriented material. Complimentary when required.

^{††}Hold down brackets: Only available at time of order. Cannot be retrofitted. Not available for shades with edge banding or deco-trim hems.

Natural shades may have variations and visual inconsistencies in color, weave, grain, and texture. They may also crack or split, twist or bow, shrink or stretch, and change color over time due to aging, direct sunlight, or other climatic conditions. These unique characteristics are inherent in natural materials and are not considered defects in material or workmanship. Exact color matches cannot be guaranteed.

Options

Cord Lift: Natural Shades

- **No charge**
- Available on standard, old style, and looped Roman shades
- Color-coordinated cord and tassels
- Controls can be on the right or left of the shade
- Safety cord cleat provides the ability to keep the cord out of reach for children and pets
- Standard cord length is approximately $\frac{1}{3}$ of the shade height
- 6" minimum control length
- Special length cords available as an option—no charge
- 6" valance is standard with cord lift option

Continuous-Loop Lift: Natural Shades

Cord Shown

Bead chain is used on shades over 30 square feet

- **For surcharge, see price charts**
- Available on standard, old style, and looped Roman shades
- Continuous-loop lift raises and lowers the shade and is color coordinated to the shade material
 - Shades under 30 square feet have color-coordinated cord
 - Shades over 30 square feet will use a nickel-plated steel bead chain loop in place of cord
 - When ordering different size shades for the same room, specify if bead chain is preferred for all shades
- Allows for easier operation of larger shades
- 9" valance is standard with the continuous-loop lift option; (6" valance not available)
- Not available with bottom up/top down or angle top shades

Cordless Lift: Natural Shades

- **For surcharge and size restrictions, see price charts**
- Available on standard and old style Roman shades
- Cordless shades offer a safer alternative for homes with children and pets
- Easy to use: to lower shade, pull down; to raise, simply guide the shade into the desired location by gently lifting or lowering with the color-coordinated wooden bottom rail
- Not available with cut-outs, bottom up/top down, deco-trim or deco-pocket hems, or angle top shades
- Standard return size is 2 $\frac{1}{8}$ "

Options

Motorized Lift: Natural Shades

- Refer to motorization product information guide for additional options, sizes, and pricing
- Window treatments can be operated from virtually anywhere in the home
- Provides easy operation of hard-to-reach or large window coverings
- Efficiently manages energy (heat gain and loss)
- Operate multiple window treatments simultaneously or individually
- A safer alternative to accessible cords that are traditionally used to operate window coverings; ideal for homes with children and pets
- Easily integrated with home automation systems
- Low voltage motorization requires no costly electrical hard-wiring
- Multiple control and power options available

Details

- Motor located on the right underside of the headrail
- Multiple controls and power options available
- Available on standard and old style Roman
- Available with 9" valance only; no valance is optional
- Multiple shades on one headrail available; each panel will have a motor and power source
- Not available with bottom up/top down or specialty shapes
- Not available with hold down brackets or side mount
- Available with bottom corner and bottom center cut-outs

NOTE: Motorization components and accessories have a five-year limited warranty, excluding batteries.

Bottom Up/Top Down: Natural Shades

- For surcharge, see price charts
- Allows shades to be raised from the bottom up like a conventional shade, or operated from the top down
- Provides privacy while still allowing light in from the top of the window
- Ideal for bedrooms
- Fabric edge banding and liner options available
 - Liner recommended for valances
- Right control will bring the bottom up; left control will lower the top down (standard control locations only)
- 4" seclusion strip will be applied on blinds that are inside mount to conceal the headrail componentry (not available on outside mount)
- Available with all valance options
- Not available with looped or old style Roman, angle top shades, continuous-loop lift, cordless lift, motorized lift, multiple shades on one headrail, or turned headrail

Options

Control Options: Natural Drapes

Wand Control, no charge (default cord type)

- Ivory fiberglass wand positioned behind drape
- Stack right, left, or split
- Split stack will have two wands

Cord Control, no charge (optional)

- Cord and heavy duty tension pulley hidden behind drape
- Stack right, left, or split

Wand Control Chart

Finished Blind Length (inches)	Cord Control Length (inches)	Wand Length (inches)
Up to 30	14	12
30 $\frac{1}{16}$ to 48	26	24
48 $\frac{1}{16}$ to 77	38	36
77 $\frac{1}{16}$ to 92	50	48
92 $\frac{1}{16}$ to 96	62	60

Fullness: Natural Drapes

Standard Fullness Right Stack

- For surcharges, see price charts
- Standard fullness (when closed, waves slightly)
- 60% fullness (when closed, features drapery-like appearance)
- Palisade valance included at time of order; see valance options for available styles

60% Fullness Right Stack

Options

Liners: Natural Shades and Natural Drapes

- For surcharges, see price charts
- Liners are 100% polyester
- Available up to 96" wide on shades and 192" on drapes
- Privacy and room-darkening liner colors available
- All liners are neutral to the street
- Liner reversal available upon request

Privacy Liner

A privacy liner is a good choice for dining rooms, living rooms, and other semi-private areas, subduing the light that enters a room. Small pinholes of light may be visible through shades with privacy liners due to the attached cord rings; see room-darkening liners for enhanced light control. Objects appear as silhouettes from the outside.

Room-Darkening Liner

This liner blocks most incoming light and provides complete privacy. Ideal for bedrooms and media rooms.

Colors	Privacy Color Number	Room-Darkening Color Number
Cocoa	2297	6297
Taupe	2659	6659
Sand	2701	6701
Seal	2012	6012
Snow White	2909	6909

Edge Banding and Colors: Natural Shades and Natural Drapes

- For surcharge, see price charts
- Edge banding adds a framed color accent and can also eliminate material fray on edge of shade
- On cordless, edgebanding will only be on sides of shade
- 1" fabric banding is applied to sides and bottom of shade and valance
- Deco-trim valance may be ordered with edge banded shades, valance will not have edge banding
- See chart for colors
- Edge banding not available on deco-trim, angle top shades, cut-outs, or with hold down brackets

Natural Drapes

- 1" edge banding required on top and bottom of drapes: **no charge**
- Optional 1" edgebanding available on drape sides: **no charge**
- Lined drapes require edge banding on all four sides
- Use chart below for colors

Edge Banding	1" Color Number
Black	7000
Chocolate	7006
Cocoa	7001
Dark Beige	7005
Gray	7176
Light Sage	7173
Mink Gray	7174
Muslin	7172
Smoke	7175
Snow White	7170
Taupe	7008
Toffee	7002
Vanilla	7171

Options

Cut-Outs: Natural Shades

- For surcharge, see price charts
- Available with standard and old style Roman shades
- Bottom corner cut-out (diagram A):
 - Maximum width: 6" cut-out
 - Any height (up to the headrail)
- Bottom center cut-out (diagram B):
 - Maximum height: 5" cut-out
 - Maximum width must leave 3" on each side of the cut-out
- Not available with: hold down brackets, edge banding, deco-trim hems, bottom up/top down shades, cordless lift, continuous-loop lift, or looped Roman shades

Diagram A

Diagram B

Angle Top: Natural Shades

- For surcharges, see price charts
- For angle top shades, supply all four measurements (A, B, C, D) as shown in the diagram below
- Shades will raise only to the bottom edge of the valance; the upper angled portion of the shades and valance cannot be opened and closed
- 6" and 9" standard valance only
- Valance requires gimp trim at the top edge by the headrail (A)
- Control location on low side only
- Not available with old style or looped Roman shades, bottom up/top down, continuous-loop lift, cordless lift, motorized lift, direct mount, turned headrail, or edge banding
- Valance returns are not available

Minimum Width	18" (outside mount) 18½" (inside mount)
Maximum Straight Width	60" (outside mount) 60½" (inside mount)
Minimum Height	10"
Minimum Height (short side)	7½"
Maximum Height	86"
Maximum Degree of Angle	60°

Measuring Outside Mount:

1. Measure exact width and height of area to be covered. It is recommended that shades overlap window frame or opening by 1½" on each side.
2. Measure height of opening on left side and mark this dimension "left". Allow for overlap as desired: 1½" on top and bottom is recommended.
3. Measure height of opening on the right side and mark this dimension "right". Allow for same overlap as left side.
4. Factory will determine the angle from these three dimensions.

Options

Multiple Shades on One Headrail: Natural Shades

- For surcharges, see price charts

How to Measure

1. Measure overall width of area to be covered.
2. Measure width of the area each shade is to cover; measure and specify left shade first, continuing to the right.

NOTE: Minimum of 1/2" between shades for operating clearance.

3. Total width of all shades, plus clearance (gap), must equal the overall headrail width.
4. Use standard inside or outside measuring directions for height.
5. For patio doors, measure height to within 1" of the floor either from the ceiling or a point high enough above door to provide clearance; cords should be on outside edges of shades; outside mount (wall) installation is recommended for patio doors.

- Shades operate separately
- Controls can be on the right or left at no charge
 - Standard for two-on-one headrail: left panel—left control; right panel—right control
 - Standard for three-on-one headrail: left panel—left control; middle panel—right control; right panel—right control
- Cord Lift
 - Two-on-one available with control positions to the outside
 - Three-on-one not available on cord lift shades
- Cordless and motorized lift
 - Two-on-one and three-on-one available—no charge
- Continuous-loop cord lift
 - Two-on-one available with control positions to the outside
 - Three-on-one available if the lift control is combined on two shades (control positions must be to the outside)
 - Three-on-one available if the lift control is on combined on all three shades; horizontal material alignment between panels is not guaranteed
- Horizontal material alignment between panels is not guaranteed
- Liner options available
- Edge banding is available—will be attached around each panel
- Shades up to the maximum material width will have a continuous valance
- Shades over maximum material width will have a valance with each panel which are butted in between each panel gap
- Palisade valance will not be spliced at the same dimensions as the multiple blinds; palisade valances will be spliced evenly

NOTE: Horizontal oriented valances over 96" will be spliced in one to three places and will not align with shade panels. Vertically oriented material will be one continuous piece. Hardwood frame will be spliced at 94" with returns and 95" without returns.

Options

Bay and Corner Windows

- Available on standard and old style Roman shades
- Bay and corner shades are used to butt two shades together in a corner window
- Pull cords can be on the right or left side of each shade; locating cords opposite of the corner is recommended
- Depending on the angle, some corner shades cannot be raised to the same height
- Bay and corner shades not available with hold down brackets, looped Roman shades, and multiple shades on one headrail

- Horizontal and vertical alignment can't be guaranteed
- Priced as standard shades, no additional surcharge
- Headrails will not be mitered
- Standard valances will not be mitered
- Palisade valances will be mitered

NOTE: Manufacturer will take appropriate deduction for corner/bay windows. If deductions are not required, do not order as corner/bay.

Front View

Front View

Measuring Information

Corner Window

Measure:

Width of each window from corner to the point you would like to cover.

Three-Sided Bay Window

Measure:

A and C: Width of side windows from the corners to the point you would like the blind to cover.

B: Width of the center window from corner to corner.

Angle A-B: Angle between windows (A) and (B).

Angle B-C: Angle between windows (B) and (C).

Measure bay angle using protractor or angle finder, or use two business cards in bay corner as illustrated and fax to customer service.

Four-Sided Bay Window

Measure:

A and D: Width of side windows from the corners to the point you would like the blind to cover.

B and C: Width of each window from corner to corner.

Angle A-B: Angle between windows (A) and (B).

Angle B-C: Angle between windows (B) and (C).

Angle C-D: Angle between windows (C) and (D).

Measure bay angle using protractor or angle finder, or use two business cards in bay corner as illustrated and fax to customer service.

Five-Sided Bay Window

Measure:

A and E: Width of side windows from the corners to the point you would like the blind to cover.

B, C, and D: Width of each center window from corner to corner.

Angle A-B: Angle between windows (A) and (B).

Angle B-C: Angle between windows (B) and (C).

Angle C-D: Angle between windows (C) and (D).

Angle D-E: Angle between windows (D) and (E).

Measure bay angle using protractor or angle finder, or use two business cards as illustrated and fax to customer service.

Options

Valance: Natural Shades

Standard Valance Horizontal Orientation

Palisade Valance Option B Shown

Cord lift and cordless no charge options

- 6" valance with shade
- No valance is optional; unfinished headrail and hardware are visible

Continuous-loop lift and motorized lift no charge options

- 9" valance with shade (6" valance is not available)

Additional valance information

- Edge banding will be applied to the sides and bottom of the valance if option is chosen for complete finished shades
- Liner can be added to the valance; must specify privacy or room-darkening liner and color; see price charts for surcharge

Control Type/ Shade Options with Standard Valance	Full Recess Depth Including Valance (inches)	Standard Return Width Outside Mount (inches)	Standard Return Width Inside Mount (inches)	Minimum Return Width (inches)	Maximum Return Width (inches)

*See motorization product information guide for more details.

- Special 2" valance return **length**: available upon request
- No liner or edge banding on valance returns

Valance: Natural Drapes

- No charge for palisade valance at time of order (must select option)
- Liner is required for vertically oriented palisade valance
- No valance is optional; aluminum headrail and hardware are visible
- Valance return height will match valance height option chosen

Deco-Trim Valance or Hems: Natural Shades

Seascape

This design is scaled to the width of the shade.

Dentil

This design will repeat with the width of the shade.

Cathedral

This design will repeat with the width of the shade.

Horizon

This design is scaled to the width of the shade.

For surcharge, see price charts

- Distinctive valance and hem designs with accent gimp
- Deco-trim valance or hem designs are cut into the valance or hem of the shade to a depth of approximately 2¹/₂"
- 9" deco-trim valance is measured from the top of the headrail to the lowest point
- Deco-trim hems allow light through at the bottom of the shade; if complete privacy and light filtering are desired, add 2¹/₂" to the ordered height
- Accent gimp must be selected with deco-trim valance or hem
- Available with 9" valance only

Options

Valance Returns for Standard Valances

Window depths vary considerably depending on the age and style of the window. **Always** measure the window depth, regardless of the type of window treatment the client is considering. Knowing the depth when the order is placed can help prevent costly errors.

To calculate the return width, use this formula:

[standard return width] minus [client window depth] = special return width to order for inside mount blind

Valance: Palisade Valance Only: Natural Shades and Natural Drapes

Option A

Option B

Option C

Valance less than 96"

Valance over 96"

Palisade valance only

- No charge option for natural drape at time of order

Natural material is mounted to a North American hardwood frame with mitered corner returns that attach separately. Valance upgrade options provide stable returns and a clean, uniform appearance.

- Valance can be ordered for use alone or to complement other window treatments
- Valance material is attached to a hardwood frame; includes mounting brackets (standard, ceiling, or projection brackets)
- Valance returns are available (must be specified at the time of the order)
- Valance returns are standard on outside mount natural palisade valance based on headrail depth

*See motorization product information guide for more details.

- Valances over maximum material width will be butted
- Edge banding is available on 6" or 9" horizontal or vertical oriented material; not available on deco-trim
- No liner or edge banding on valance returns

Options:

- 6" or 9" valance with horizontally material orientation; edge banding is optional (6" not available with motorized lift and continuous-loop lift).
- 6" or 9" valance with vertical material orientation; 1" edge banding top and bottom mandatory (6" not available with motorized lift and continuous-loop lift).
- 9" deco-trim valance; no vertical orientation option (must select accent gimp).
- Wood cornice: See cornices and valances product information guide.

NOTE: Horizontal oriented valances over 96" will be spliced in one to three places and will not align with shade panels. Vertically oriented material will be one continuous piece. Hardwood frame will be spliced at 94" with returns and 95" without returns.

Options

Accent Gimp: Natural Shades

- For surcharges, see price charts
- Required with 9" deco-trim valance or deco-pocket hem; optional on other horizontal material orientation valances and standard hems
- Not available with vertically-oriented material

NOTE: Must choose accent gimp color when a deco-trim style has been selected for the valance or hem.

Cleaning Instructions

Occasional light vacuuming with a brush attachment should keep shades clean.
DO NOT use water or liquid cleaners.

Springs Window Fashions Limited Warranty

WHAT IS COVERED

This product is warranted against original defects in materials or workmanship for the time period specified below, provided that the product was properly installed, the product was made or assembled exclusively from Springs Window Fashions' materials and components, and all Springs Window Fashions' recommendations were followed with regard to limitations and specifications. This warranty extends only to you as the original purchaser of the product.

Limited Lifetime Warranty

- Cellular shades
- Roller shades
- Solar shades
- Roman shades
- Natural shades
- Pleated shades (with looped tape)
- Sheer shades
- Layered shades
- Wood blinds
- Faux wood blinds*
- Composite blinds
- Wood shutters
- Composite shutters
- Sliding panels
- 1" and 2" aluminum horizontal blinds
- 2" vinyl horizontal blind headrails and components
- Vertical blind headrails, channel panels, and sheer fabric
- Painted and stained valances
- Painted and stained cornices
- Ladders and cloth tapes

*Excludes Foundations faux wood blinds (see Five-Year Warranty)

WHAT IS NOT COVERED

- Unfinished cornices, valances, or Palladian shelves
- Normal wear and tear, including:
 - Loss of color intensity, discoloration, fading, cracking, or yellowing caused by long exposure to direct sunlight
 - Slight color variation
 - Natural variations in color or grain of wood
 - Natural variations, cracking, splitting, twisting, bowing, shrinking, or stretching of organic material used in natural shades
 - Slight warpage of wood blinds or shutters; excessive warpage of wood blinds or shutters caused by moisture or high humidity
- Exterior solar shades damage caused by inclement weather, windy conditions, coastal/salt conditions, pressure washing, or exposure to chemicals including chlorine
- Shutters damage caused by improper maintenance, including sanding, improper washing, and use of razor blades or sealants
- Fabric damage caused by abuse, accidents, alterations, misuse, or failure to follow measuring/installation/use/cleaning/maintenance instructions

WARRANTY OBLIGATIONS

The obligations of Springs Window Fashions are limited to the replacement or repair of parts or products found to be defective. If repairs are made under this warranty, the repairs will be made with like or similar parts. It is at the sole discretion of Springs Window Fashions to determine whether product will be replaced or repaired.

Springs Window Fashions is not responsible for shipping costs or labor costs, for measuring or taking the product down, or for remeasuring or reinstalling the product.

Springs Window Fashions may defer actions on any claim for warping for a period of up to twelve (12) months from the date of the claim in order to permit acclimating to humidity and temperature conditions.

Warranty coverage applies to defective product only. Other window coverings in the room/household will not be replaced.

THIS WARRANTY IS EXCLUSIVE AND IN LIEU OF ALL OTHER WRITTEN OR ORAL WARRANTIES OR OBLIGATIONS AND LIABILITIES. THE DURATION OF ANY IMPLIED WARRANTIES FOR ANY PRODUCT IS LIMITED IN DURATION TO THE WARRANTY TERM APPLICABLE TO SUCH PRODUCT AS SET FORTH ABOVE.

SPRINGS WINDOW FASHIONS SHALL HAVE NO LIABILITY WHATSOEVER FOR INCIDENTAL, PUNITIVE, OR CONSEQUENTIAL DAMAGES.

Some states do not allow the exclusion or limitation of incidental, punitive or consequential damages, so this limitation or exclusion may not apply to you.

No person is authorized to extend or alter this warranty.

Five-Year Warranty

- Foundations faux wood blinds
- Motorized components and accessories (batteries not included)
- Exterior solar shades
- Draperies
- Fabric-covered cornices and valances
- Fabric-tailored shades and accessories

Three-Year Warranty

- Operating cords
- Pleated shades (without looped tape)
- 2" vinyl horizontal blind slats
- Vertical blind vanes
